Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The office action in response to the Application filed on May 28, 2004, in which 1-77 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-28, 31-58 and 69-77, drawn to A method for automatically calculating and creating a data structure based on a data dependency path, classified in class 707, subclass 102.
 - II. Claims 29-, 30 and 59-62, drawn to a method for implementing a semantic data model in a relational database management system, classified in class 707, subclass 104.1.
 - III. Claims 63-68, drawn to a computer readable medium containing thereon a data structure for storing data in a semantic data model, classified in class 707, subclass 101.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions Group I, II and Group III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention method for implementing a semantic data model in a relational database management system and method for implementing a semantic data model in a relational database management system have separate utility such as a computer readable medium containing thereon a data structure for storing data in a semantic data model. See MPEP § 806.05(d).

Art Unit: 2162

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
5. Because these inventions are distinct for the reasons given above and the search required for Group I, II is not required for Group III, restriction for examination purposes as indicated is proper.
6. A telephone call was made to Petry Marvin on July 13, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made because the phone rang with no answer.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jean M. Corrielus whose telephone number is (571) 272-4032. The examiner can normally be reached on 10 hours shift. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Breene can be reached on (571) 272-4107.
